2100 SERIES

COOLER & FREEZER DOORS

ADVANTAGE

2100 SERIES

Anthony's unique design, combining aesthetics with significant energy savings! A colored border within the door glass "frames" the products in the case, and enhances your store décor.

Features

- Standard border colors (Black, White, Grey, Red, Yellow, Blue, and Green) available with matching 8" or full-length handles; minimum quantity required for custom colors
- Frame finishes in Black or Satin Silver anodized
- Adjustable 27" deep Black or White shelving system standard
- ENERGY-FREE normal temperature doors, with heated glass available for extreme climate conditions
- Clear, heat-reflective glass coatings available for energy efficiency and maximum product visibility
- One of the most energy-efficient frames on the market, available with or without flanges
- Reversible doors for quick change to left or right hinge
- Torquemaster™ system for door sag adjustment and closing tension
- Magnetic door gaskets for tight seal
- Anthony hinge pin for cordless power to door
- Matching 2103 Pass-Thru doors available in all clear glass, all solid color glass, or 1/3 clear 2/3 solid
- Full-length light fixtures with lamp shields and 120V prewired ballasts
- ELS lighting and OptiMax LED lighting are optional
- Portable Outside Mount, Electronic, or factory-installed Cylinder door locks are available as options
