

ANTHONY[®]

ELIMINATOR™

**ANTHONY INTERNATIONAL
STYLE & ENERGY SOLUTIONS**

ANTHONY

The **ELIMINATOR™** is a highly energy-efficient door and frame system for both cooler and freezer applications.

ELIMINATOR™ is now available in two versions:

ELM1 with flat door rail

ELMC with curved door rail

- Greater energy savings than traditional doors
 - Utilizes Warm Edge technology to completely eliminate all glass heat in freezer doors
 - Standard ELS (T-8) lighting
 - Field reversible doors
 - Easily retrofits to Model 101 frames
 - Qualifies for energy rebates in many regions

Black or Gray CleanGrip curved anti-microbial handle
Black Soft-Touch curved handle
Black or Chrome Slimline handle

ELMC with curved CleanGrip handle
