Clarus Swing Door

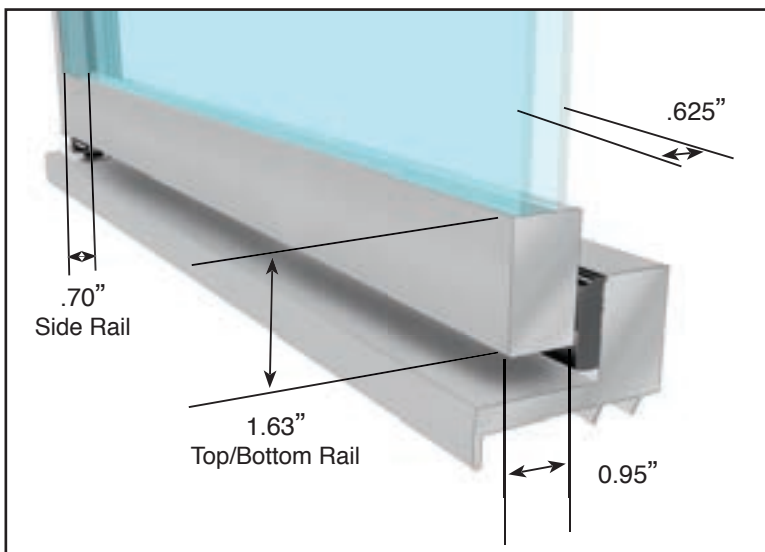

Slim Design with Great Visibility
& Energy Efficient Performance

Anthony's Clarus is a full vision lightweight, durable swing door that makes shopping easy and reduces energy consumption

Features

- Slim design includes a spacious viewing area, thin perimeter rails, zero-heat narrow glass pack, and stylish Arch handle that allows shoppers to easily see and access merchandise
- Zero-heat door and frame system for normal temperature applications saves up to 65% on energy costs
- Optimax Pro 24 LED lights save up to 75% on energy costs, provide superior illumination, and are a perfect lighting solution when retrofitting glass doors on open multi-deck refrigerated display cases
- Gravity hinge provides smooth door movement and a detent props the door open, allowing easy access for product selection and restocking

Applications

Closing open multi-deck refrigerated display cases
