Product Displays Customers Respond To

Breathe new life into your current refrigeration cases overnight. For a fraction of the cost of a new one, give your case a face lift with Anthony's retrofit kits, creating a whole new look customers instantly respond to. Secure a precise match to your current cases. Only Anthony produces kits that meet or exceed all of the major original case manufacturers specifications. You won't be able to tell the difference.

Quick, Convenient Installation Process

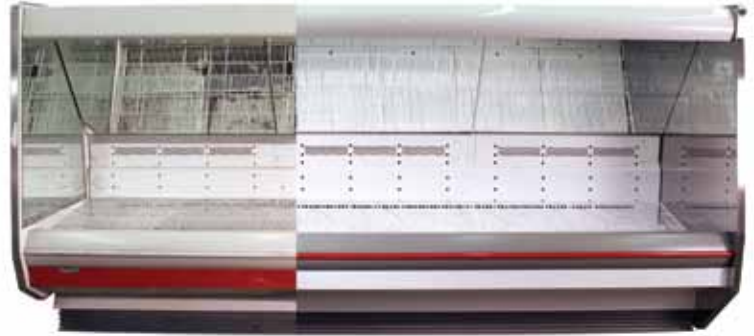

Anthony provides convenient off-hour installation to minimize down time and insure optimal value. You will ensure safety, accuracy, and efficiency by choosing Anthony for the installation of your retrofit kits. Make your cases shine from the inside out. Anthony creates retrofit kits that will make your cases sparkle from the interior to the exterior, ensuring your store always looks its best.

Enhancing the Aesthetic Value For a Fraction of the Cost

Anthony offers dependable after-market products, with over 13,000 reliable parts available, many in stock and available sooner than those sold by display case manufacturers. Anthony can provide mix-matched exteriors with a uniform style throughout your store with all parts fabricated to meet or exceed current manufacturers specifications. With a wide range of interior and exterior parts, we will give your display cases a fresh look. Without compromising functionality, we will help you save up to 75% of the cost of total case replacement. Ask us how.

Replacement Parts

A Heavier Grade

Forget flimsy parts and cases. We use a heavier grade of stainless steel metal than other manufacturers to make your cases last much longer.
