

Fully Automated Beer Cave Door

Maximum Product Visibility and Easy Access

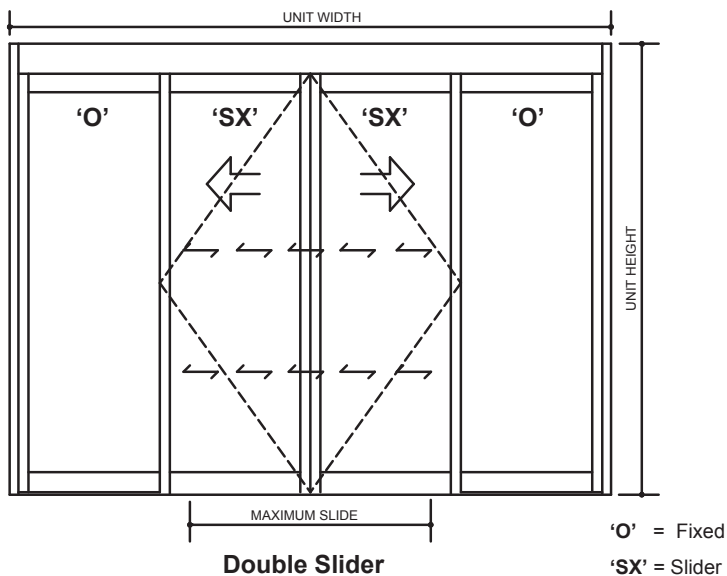

Fully Automated Beer Cave Door

Large Glass Entry for maximum product visibility and easy access

All door components are fully tested and preassembled at the factory prior to shipping. Preassembled header components mean fast, trouble-free installation at the job site.

Automated Beer Cave Door Features

- Electronic eye maintains opening and closing speeds at preset distances
- Interior and exterior motion sensors ensure reliable motion detection
- Advanced threshold sensors provide added safety - obstructions are detected and doors remain open until the threshold area is clear
- Microprocessor controller continually monitors door position
- Anthony insulated safety glass on all fixed windows and sliding doors
- Professional installation included

Door packages are custom manufactured to fit your job requirements. For sizes greater or smaller than typical, contact your local Anthony Sales Representative.
