

Anthony Launches Next Generation Walk-In Door & Frame Platform increasing Anti-condensate sweat protection

Sylmar, CA, November 8th, 2021 – Here at Anthony we are excited to be launching Our Next Generation Walk-In Door & Frame Platform, this new and improved platform has been redesigned and re-engineered, enhancing key features and making it our best performing Walk-In Platform yet, offering unsurpassed performance. Our improved designs and features have resulted in increased thermal efficiency and anti-condensate sweat protection levels across the entire platform*:

- Normal Temperature Applications (Coolers): **75°F, 65%RH ambient/35°F**
- Low-Temperature Applications (Freezers): **75°F, 65%RH ambient/-10°F**

Our platform's new frame includes improvements such as vacuum insulated paneling, fully sealed enhanced mullion design, and the overall reduction in the number replacement parts. Our doors (401, 101, Infinity 90 Series) will come standard factory installed with our new Air Shield Technology. Air Shield Technology, only available through Anthony, reduces air and heat transfer at the door rail, providing an added a layer of thermal protection and improved sealing for an overall increase in Anti-condensate sweat protection.

The following Product Families have been reconfigured with the new Door/Frame platform: 401; 101; Infinity®90; Infinity® 60; and our Vista® C Series. Other updates to our new platform include the new standard single swing configuration for both the Infinity 60® and Vista® C Series Doors. *401 Series will remain at 75°F, 55%RH ambient in both NT & LT applications.

"We've combined all of our innovations, LifePlus Gasket and its three year warranty, Optimax 7 Series LED, and Air Shield technology into our platform to produce the best door in the History of Anthony!" said Uri Rainisch, senior product manager for Anthony. *"The improved durability, thermal efficiency, and increased anti-condensate sweat protection are unparalleled and we're happy to support our customers desire to sell more merchandise and save more money."*
