

OPTIMAX RADIANT SERIES

Uniform LED Lighting with  
High Color Rendering

# Optimax Radiant Series LED Lighting

## Truly See Cold-Vault Merchandise

New Optimax Radiant Series LED Lighting optimizes cold-vault merchandising through the use of best-in-class uniformity and high color rendering that creates improved product visibility. The lighting beckons the shopper to look inside, with the result being improved cold-vault sales and profits for convenience-store and grocery-store retailers.

Additionally, Optimax Radiant cold-vault lights are designed with an industry-leading efficacy (up to 118 Lumens/Watt) and a 100,000-hour L<sub>70</sub> life cycle for long-term reliability.

## Key Features Include:

- 24V constant-voltage power supply
- 85, 90 or 94 CRI available
- OP55 model has been specifically designed for French-Swing doors in order to maximize lighting uniformity
- 5-year warranty

All Models 3500K and 4000K  
DLC Approved

## Optimized Merchandising

The Optimax Radiant Series lights highlight merchandise that dazzles the cooler and freezer aisle. The OP55 model is available for French-Swing doors and allow for an increased net opening to beautifully display merchandise.

The Optimax Radiant family is available in nominal sizes ranging from 18 to 72 inches in length and available in both end- and center-fixtue configurations. In side-by-side tests, the Optimax Radiant outperformed competitive models in lumens, efficacy (Lumens/Watt), distribution and L<sub>70</sub> life.
